

UN-INSTALL PROCESS

Follow the process below to do a complete **un-install** of the ArkWorks program and database.

 Server \ Stand-Alone Machine:

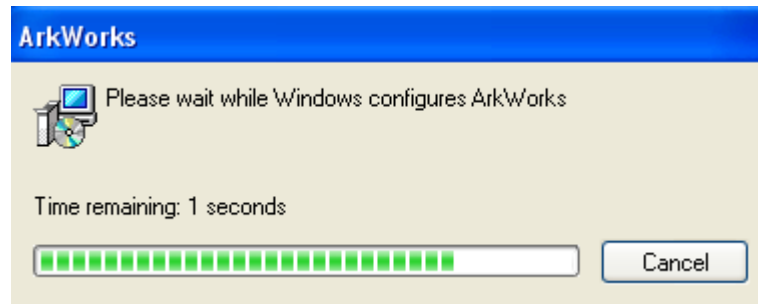

Bring up the **Add or Remove Programs** window from the **control panel**.

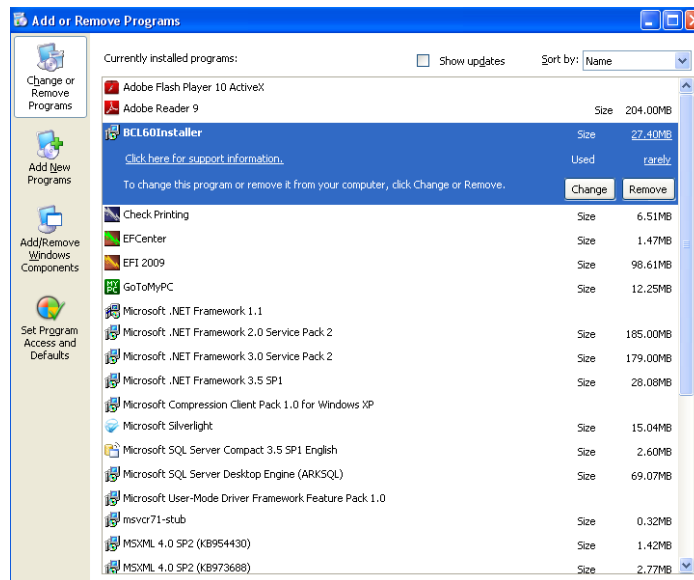

Highlight ArkWorks and select **remove**.

Select **yes** to this message.

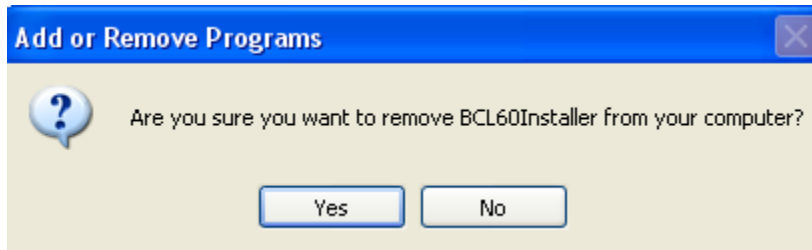

It will proceed to **uninstall** ArkWorks.

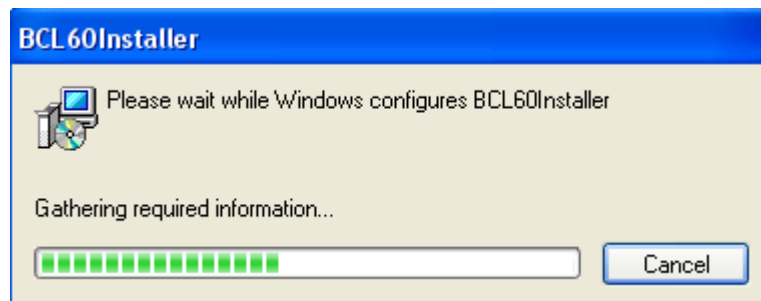

Next Select **BCL6.0Installer** and select **remove**.

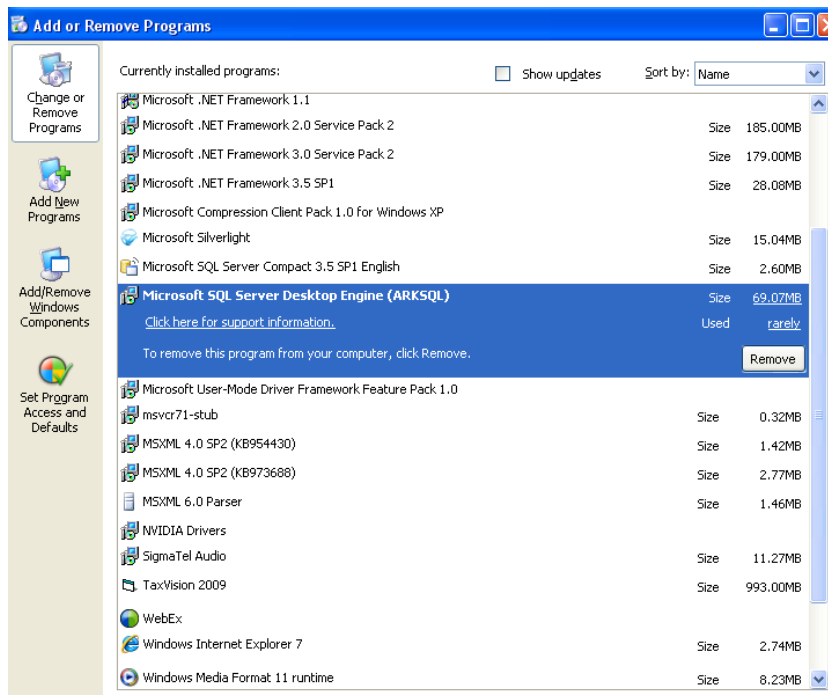

Note: If you have **BCL5Installer** remove this as well. (Follow same steps)

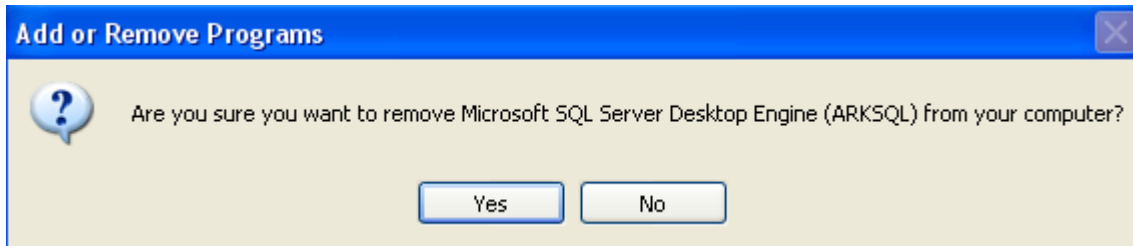

Select **yes** to this message.

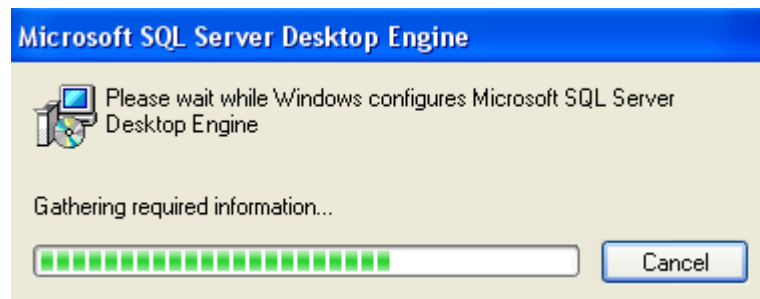

It will proceed to uninstall **BCL (ArkWorks PDF Printer)**.

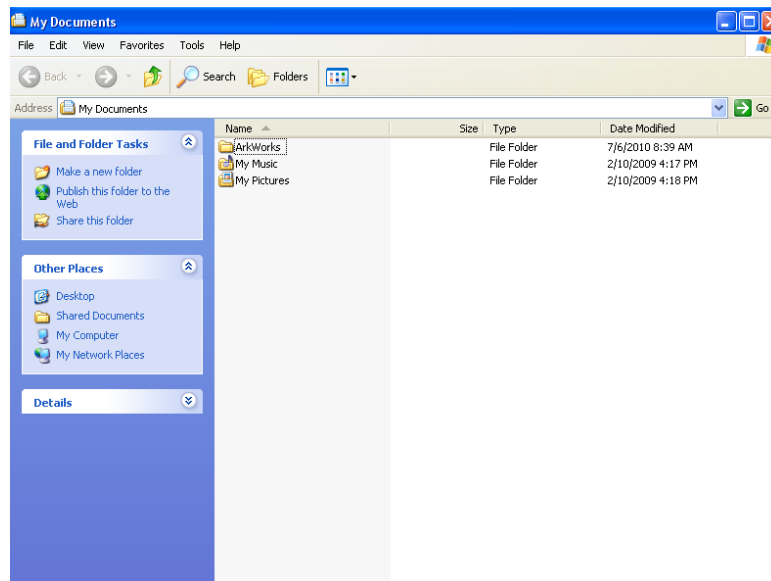

Next, highlight **Microsoft SQL Server Desktop Engine (ArkSQL)** and select **remove**.

Select **yes** to this message.

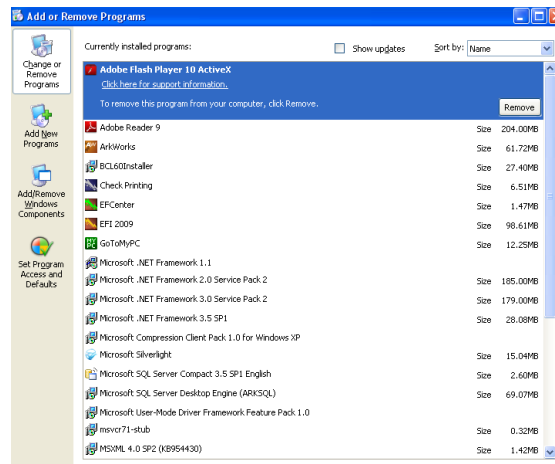

It will proceed to **uninstall** the **database** for ArkWorks.

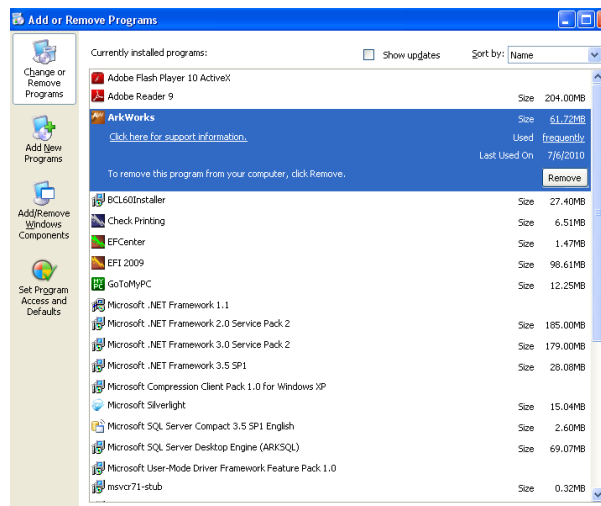

Once all these things are removed, go to **My Documents** and **delete** the **ArkWorks** folder.

ArkWorks is now uninstalled!

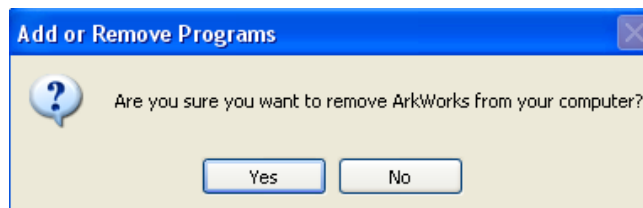

⚙️ Workstation (Uninstall):

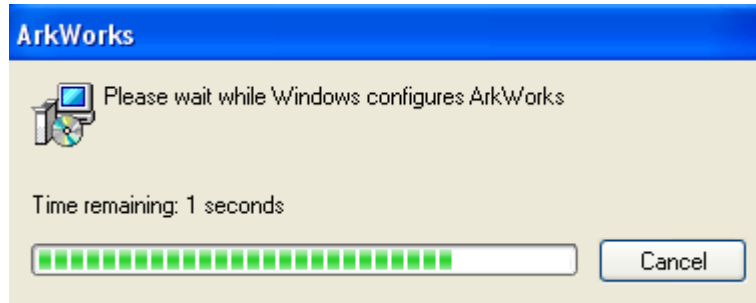

Bring up the **Add or Remove Programs** window from the **control panel**.

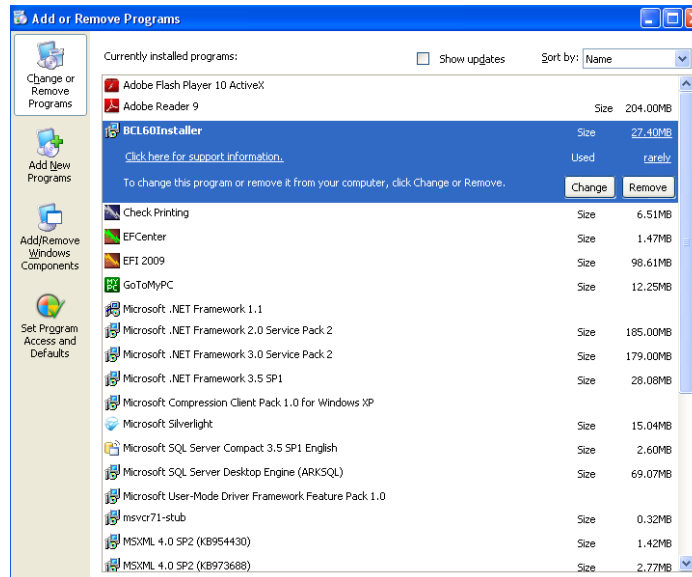

Highlight ArkWorks and select **remove**.

Select **yes** to this message.

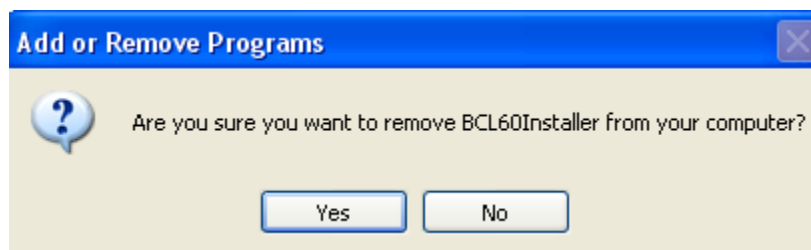

It will proceed to **uninstall** ArkWorks.

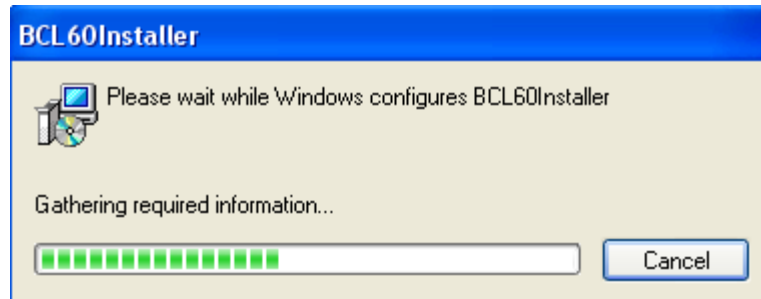

Next Select **BCL6.0Installer** and select **remove**.

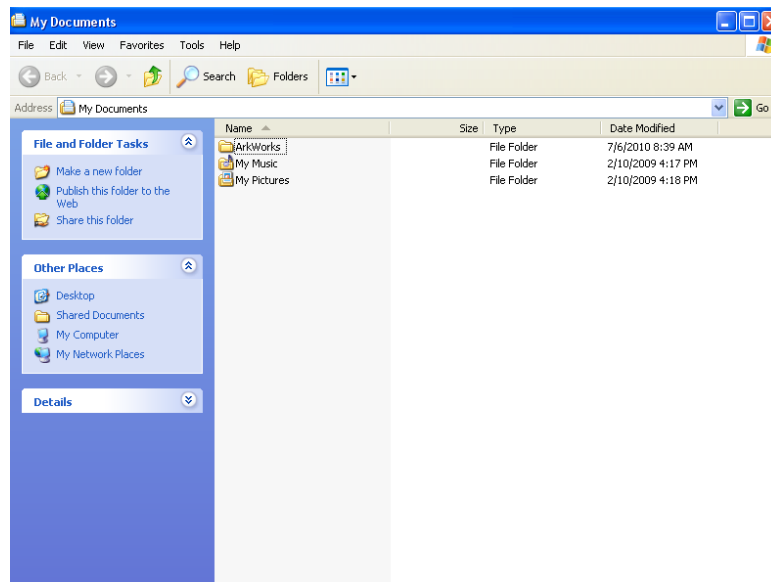

Note: If you have **BCL5Installer** remove this as well (Follow same steps)

Select **yes** to this message.

It will proceed to uninstall **BCL (ArkWorks PDF Printer)**.

Once all these things are removed, go to **My Documents** and delete the **ArkWorks** folder.

ArkWorks is now uninstalled!
